

BOARD MEETING UPDATE

8 April 2009

Outlined below is a summary of the April 2009 Goulburn Valley Water Board Meeting.

Pressure Sewer Systems

The Board endorsed the inclusion of pressure sewer systems as an acceptable option for providing reticulated sewerage services within the Corporation's region.

Tongala Water Treatment Plant Filter Replacement

The Directors were updated on progress with the Tongala Water Treatment Plant Filter Replacement Project and approved the process and control contract tender.

Adoption of 2009-14 Corporate Plan

The Board adopted its 2009-14 Corporate Plan which confirms the key strategic objectives of the Corporation over the next 5 years.

The Board noted the following reports:

Bushfire Recovery Program

The bushfire recovery phase is progressing satisfactorily, with all identified risks being managed adequately to date and with management plans in place for potential future risks.

Corporate Plan Review

The Directors were provided with a report on the status as at February 2009 of implementation of the corporate goals established in the 2008/2009 Corporate Plan.

Reclaimed Water Discharges to Goulburn River

The Directors were informed on the findings of a review of impacts and risk assessment associated with discharges to the Goulburn River from the Alexandra, Eildon and Shepparton Wastewater Management Facilities.
