Engineer - Strategic / Asset Planning

- **Classification GVW3/4 \$65,352 - \$98,029***
- **Career development opportunities**
- **Work/life balance**

Goulburn Valley Water (GVW) provides quality water and wastewater services to 54 towns in North Central Victoria. Our core purpose is to deliver safe, reliable and affordable water services to residential, commercial and industrial customers.

Looking for a role with meaning? Join our Planning, Strategy and Environment team in doing purposeful, sustainable work that helps shape our communities and the future.

Located in Shepparton, you will be responsible for the development and implementation of long term strategic, asset and water planning and hydraulic modelling. Your input will have a direct impact on GVW's ability to service our customers both now and into the future.

Previous experience in the water industry within a planning environment, along with your engineering qualification, will compliment the high performing team.

Sound analytical, problem solving and communication skills are a natural strength and will be invaluable in your liaisons with stakeholders across the business.

Graduates are also encouraged to apply.

For further information on this position, please contact John Xu - Senior Engineer - Strategic/Asset Planning - 0408 051 391

*The classification for this position will be determined by the individuals relevant qualifications, skills and experience.

Applications close 5pm, Friday 24 August 2018

Applicants must address each Key Selection Criteria in the position description to be considered for an interview

Visit our website for information on how to apply and to view the position description.

Goulburn Valley Water is an equal opportunity employer valuing all people, diverse backgrounds, experiences and perspectives
